WEDDING DESTINATION

*Ischia. The island. The sea. The sun.
Wild nature. The seagulls...*

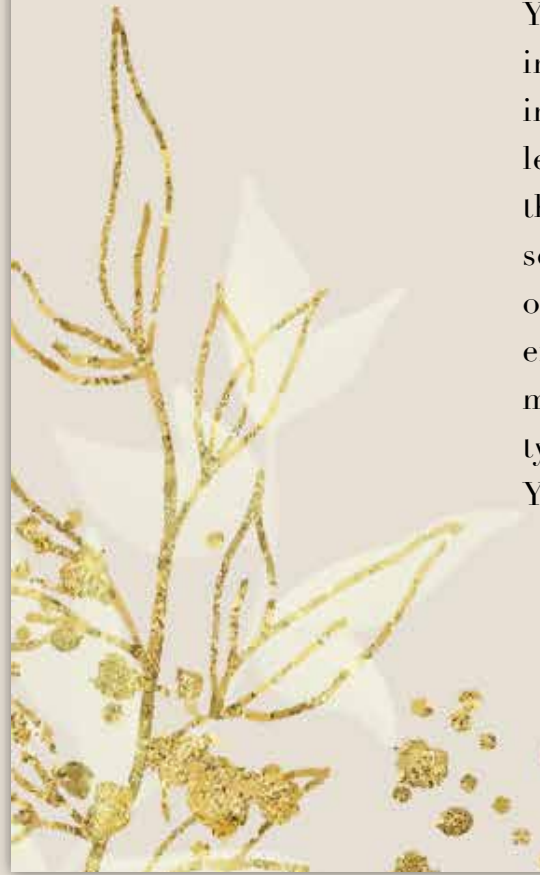

Choosing the island of Ischia as the place to celebrate one's own union of love is something that comes by itself... Just listen to the stories, look at a picture or simply have an idea where God placed it.

Yes, because it was placed right there, in the beautiful Italy and precisely in the Gulf of the Sirens, where the legendary Partenope reigned, where there is always the sun, where the sea inspires the most beautiful songs of all time and poets become travelers of infinite spaces... there, where music plays the notes of love, eternity, oblivion.

Yes, because Ischia is the island of

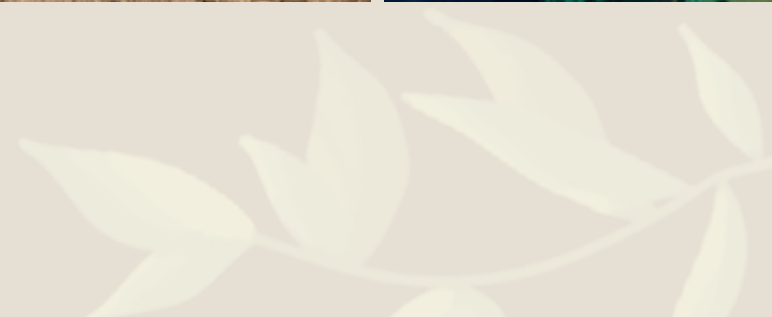

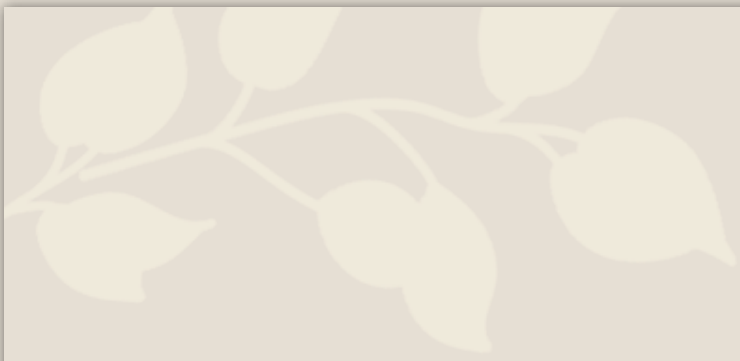

love... it is the joyful reflection of a land steeped in sentimentality and passion... And it is found there, in the Neapolitan sea, caressed by the waves of the most romantic archipelago in the world and cradled by the warm winds of South. Ischia is like this: it is the green island, it is the island of the enormous giant that holds its weight, it is the island where every season has its magic, its beautiful colors, and is that "the cross" in winter, both in summer, in autumn or in spring there will always be so much wonder to tell and discover and a unique journey to take, with its emotions, its sighs and its yearnings, especially if these emotions are linked to the "Day of the yes".

Welcome to Ischia!
